

37th Scientific Conference
Nutrition Society of Malaysia
Nutrition Response to
COVID-19 and NCDs

21-22 June 2022 | Zoom Virtual Platform

- EVENT PICTORIAL REPORT -

Prepared by: Secretariat, Versacomm Sdn Bhd

Vetted by: Dr Tee E Siong President, NSM

Updated: 12 July 2022

Contents

- Part A: Opening Ceremony
 - Welcome address by President of NSM
 - Presentation of NSM prizes
- Part B: Scientific Programme
 - Day 1: 21 June 2022
 - Day 2: 22 June 2022
 - Prize presentation ceremony
- Part C: Conference Website

A. OPENING CEREMONY

DAY 1: 21 JUNE 2022

B. SCIENTIFIC PROGRAMME

DAY 1: 21 JUNE 2022

Summary of Scientific Programme

- 1 Keynote Lecture
- 4 Invited Lectures
- 4 Symposiums
- 5 presenters in Young Researchers' Symposium
- 6 Free Paper Presentations
- 122 posters (7 videos uploaded)

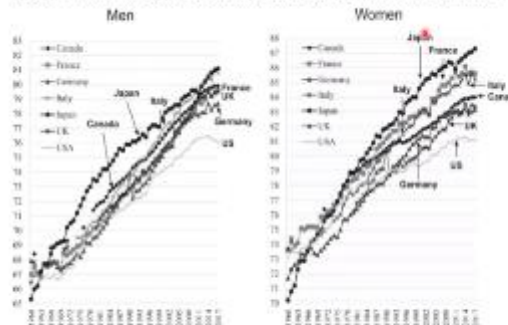

Keynote Lecture

Nutrition interventions to combat NCDs and COVID-19 health threats – Experiences in Japan

Chairperson:
Dr Tee E Siong
President, Nutrition Society of Malaysia

Speaker:
Prof Dr Hisanori Kato
Univeristy of Tokyo, Japan

Fig. 1: Annual trends of life expectancy at birth (years) in selected countries.

The figure was prepared by the author using data from "OECD Health Statistics 2019"

27 APRIL 2022 Registration & Abstract Submission Open	22 MAY 2022 Abstract Submission Closed
21 - 22 JUNE 2022 Conference Day	23 June 2022 Post-Conference Events

ABOUT THE CONFERENCE

The COVID-19 pandemic over the past 2 years has disrupted lives worldwide, with people around the world, including Malaysia, facing unprecedented challenges. In addition to the health risks, food systems and the environment are also facing a crisis. It is more important to maintain a healthy lifestyle as the pandemic rages, at the same time, revealed the importance of strong immune systems to fight against the virus. Optimal nutrition is the key to protect and maintain good health and immune system.

However, the outbreak has imposed a new set of challenges for the population to maintain a healthy diet due to the need to adhere to guidelines, the rising price of fresh produce and the lack of fresh produce. The lack of fresh produce in the household is a major concern. The lack of fresh produce in the household is a major concern. The lack of fresh produce in the household is a major concern.

Tentative Plenary Lectures / Symposium topics

- Multicultural and food tradition
- Nutritional contents of whole grains
- Learning from real world data and ethics
- Physical activity and wellness behaviour

Virtual Exhibition / Herbalife Nutrition

About Herbalife Nutrition

Since 1960, Herbalife Nutrition have been on a mission to improve nutritional habits around the world with great-tasting, high-quality, science-backed nutrition products that help people get the right balance of healthy nutrition.

Operating in over 90 countries, we are a strong advocate of healthy, active lifestyle. We pride ourselves as being the #1 in the world for meal/replacement and protein supplements combined*, and also the #1 in the world in weight management and wellbeing** – motivating us to provide more nutrition solutions for our consumers.

Our signature protein shake product is the Herbalife Nutrition Formula 1 Nutritious Mixed Soy Protein Drink. 1.9 million of these protein shakes are consumed every day in Asia Pacific***.

Awareness on obesity may be widespread, however, many still don't have access to the knowledge they need in order to live healthier lives. We believe in imparting and sharing the right knowledge in nutrition and how our bodies work, allowing one to make smarter eating choices.

Some of the initiatives we are involved in is the STAR Program, a three-month program to educate our Casa Herbalife Nutrition children from 3 different homes here in Malaysia on positive eating and lifestyle habits. We also conduct Asia Pacific-wide consumer surveys on various nutrition topics to raise awareness on the role of balanced nutrition, and collaborate with Nutrition Society of Malaysia on public nutrition education and sharing of nutrition insights and knowledge from our experts with the Malaysian public.

About Kerry

Kerry - Inspiring Food. Inspiring Life.

Kerry is the world's leading B2B and B2C food company for the food, beverage and pharmaceutical industries. Kerry does not partner with customers to create healthier, better and more sustainable products that we consumed by billions of people across the world.

Our customers include the largest consumer goods, consumer, foodservice operators, food manufacturers and governmental companies in the world, as well as some of their fastest growing challenges. Whether increasing food value and margin content or developing cleaner labels and plant based products, Kerry has expertise to do it.

We inspire food and our clients through the passion, commitment and work of our global team of expert food scientists, chefs, bartenders, brewers, microbiologists, bakers and nutritionists. We know that success requires the ability to stay ahead of ever changing consumer demand.

Kerry's heritage, knowledge and expertise enable us to deliver better foods, health and wellbeing globally. We bring a deep knowledge of culture, life stages and related mind and food needs together with our expertise in the multi-dimensional science of taste. We make products people enjoy and feel better about consuming.

About FrieslandCampina Institute

The FrieslandCampina Institute provides nutrition and health professionals with information about dairy, nutrition and health following scientific developments.

Dairy plays an important role in worldwide nutrient security. We believe that disseminating more science-based information on the role of dairy in our diets, will improve the nutritional status of people worldwide. How? Through stimulating scientific debates and sharing knowledge on dairy, nutrition and health, FrieslandCampina Institute actively engages with governments, NGOs, institutes, scientists and nutrition & health professionals all over the world.

What we do? FrieslandCampina Institute provides nutrition and health professionals scientific information, accredited education programs, round table debates on scientific topics and practical tools on a wide variety of nutrition and health topics, ranging from general health in all stages of life to the nutritional composition of milk and dairy products.

"The FrieslandCampina Institute stimulates the exchange of knowledge with the aim of better nutrition for all".

Virtual Exhibition / HARVEST GOURMET BY NESTLÉ

About Harvest Gourmet By Nestlé

Meet the future of plant-based food here with Harvest Gourmet and Nestlé Dairy Free!

With a growing appetite for plant-based foods, more and more people are looking for healthier food options that are also better for the planet. A plant-based diet is based on foods that come from plants with few or no ingredients that come from animals. This includes vegetables, fruits, grains, legumes, nuts, seeds and tofu.

At HARVEST GOURMET, we write products to make delicious food that is also at the forefront of food science. We focus on using blends and to enhance plant-based food not only for a healthier diet but a healthier planet for future generations. We want to be an easy step of your journey towards a healthier and more sustainable plant-based food. From farm goodness with a lot of love and care of the harvest HARVEST GOURMET products range that is high in taste and a good source of fiber (Fig 1 & below 2).

In addition, one of Nestlé's mission is always to be better than the dairy free food. The MILK and MISO's Dairy Free blends will be a great choice for plant-based diets. The option of their two brands (1) and (2) are also available. The Nestlé Dairy Free blends are made with plant-based ingredients and protein sources such as almond, soy and pea. Dairy-free blends are also low in fat.

Together, we support Malaysia on their plant-based food journey towards more sustainable, healthy & tasty life.

Virtual Exhibition / Malaysian Palm Oil Board

About Malaysian Palm Oil Board

The Malaysian Palm Oil Board (MPOB) is the premier government agency entrusted to serve the country's oil palm industry. Its main role is to promote and develop national objectives, policies and priorities for the wellbeing of the Malaysian oil palm industry.

It was incorporated by an Act of Parliament (Act 582) and established on 1 May 2000, taking over through a merger, the functions of the Palm Oil Research Institute of Malaysia (PORIM) and the Palm Oil Registration and Licensing Authority (PORLA).

Each of these respective organisations has been involved in the oil palm industry for more than 20 years and it is to render more effective services as well as to give greater national and international focus to the industry that MPOB was instituted.

MPOB holds a vision of becoming the premier Nobel Laureate - producing research and development institution, providing leadership and impetus for the development of a highly diversified, value-added, globally competitive and sustainable oil palm industry.

Its mission is to enhance the well-being of the Malaysian oil palm industry through research, development and excellent services.

Yakult

About Yakult Malaysia

Yakult (Malaysia) Sdn. Bhd. was established in 2004 as a fully owned subsidiary of Yakult Honsha Co., Ltd.

The first ever bottle of Yakult cultured milk drink was created by Dr. Shirota in Japan in 1935. In Malaysia, cultured milk drink, Yakult Ace was first introduced in 2004. This was followed by the launching of its lower sugar version cultured milk, Yakult Ace Light in 2016.

Both Yakult Ace and Yakult Ace Light are high quality probiotic drinks that contain over 30 billion live Shirota strain bacteria in every 80ml bottle. In Malaysia, Shirota strain is recognized as a probiotic bacteria by the Ministry of Health under the Food Regulations. This Shirota strain is among the strongest and able bacteria that is able to resist gastric juice to reach the intestine area.

Yakult Ace and Yakult Ace Light

With the headquarters based in Shah Alam, Yakult (M) Sdn. Bhd. has its manufacturing facilities in Seremban, Nagel, Seremban and other branches in Alor Gajah, Pasirang, Ipoh, Kuala Lumpur, Kota Bharu, Kuala Terengganu, Seremban, Melaka, Johor Bahru, Kuching, Shrinia and Kota Kinabalu.

Yakult HQ: Lot No 7, Jalan Jurangcang U1/21, Seksyen U1, Hicom Glenmarie Industrial Park, 40150 Shah Alam, Selangor Darul Ehsan

Yakult Factory: No. 276, Jalan Januari 1, Kawasan Industri Park, 70300 Seremban, Negeri Sembilan Darul Iktisak
