Our Technology Your Value Creation

Tuesday, 28 June 2022

SawitSecure 2.0 for the Malaysian Oil Palm Industry

This SawitSecure 2.0 app provides procedures to reduce the likelihood of alien pathogens being established in Malaysia and minimize the impacts of pest incursion.

[Learn More](#)

HYBRID EVENT

- ✓ Virtual Seminar and Exhibition
- ✓ Showcase of technologies and services
- ✓ Business opportunities in the oil palm industry for entrepreneurs
- ✓ Networking opportunities

WHAT IS TOT?

It is the transfer of new MPOB R&D findings from the laboratory to the market place. The new technologies and services are offered to the oil palm industry for adoption and commercialization. TOT webinar contributes towards energising the industry with innovations and opportunities in wealth creation.
